eUpdate

08/29/2025

These e-Updates are a regular weekly item from K-State Extension Agronomy and Kathy Gehl, Agronomy eUpdate Editor. All of the Research and Extension faculty in Agronomy will be involved as sources from time to time. If you have any questions or suggestions for topics you'd like to have us address in this weekly update, contact Kathy Gehl, 785-532-3354 kgehl@ksu.edu, or Dalas Peterson, Extension Agronomy State Leader and Weed Management Specialist 785-532-0405 dpeterso@ksu.edu.

1. K-State Hosts Limited Irrigation Field Days

Farmers, producers, and agronomy professionals are invited to attend two upcoming **Limited Irrigation Field Days** hosted by the K-State Northwest Research-Extension Center in Colby and the K-State Southwest Research-Extension Center at Tribune, along with the support of several sponsors. These events will showcase the latest research and demonstrations on limited irrigation strategies, helping producers make informed decisions for water-efficient crop production.

Date, Time, & Location:

- **September 3, 2025** – Thomas County
Time: 8:00 AM (CT)
Directions: North of Levant on Co Rd 11 to Co Rd U, then ¼ mi east. Breakfast will be served
Plot Cooperator: Legacy H Farms
- **September 10, 2025** – Scott County
Time: 4:30 PM (CT)
Directions: South of Scott City on US 83 to W Rd 20, 1 mi west to S Kansas Rd., then ¼ mi north. Supper to follow at Fairgrounds
Plot Cooperator: Buehler Grain and Forage and Cheney Farms

Agenda Highlights (see flyer below for specific topics for each location)

- Off-Season and In-Season Tools for Limited Irrigation
- Limited Irrigation Strategies
- Updated Nitrogen Recommendations
- Residue, Infiltration, and Sprinkler Design
- Hybrid Showcase with Seed Company Representatives

Registration

Attendance is free and open to the public. An RSVP is appreciated but not required. For more details and registration, visit www.northwest.ksu.edu/agronomy or call 785-462-6281.
